

Byggfakta News

Our target group for the trade magazine Byggfakta is decision makers, architects, contractors, consulting engineers and contractors, suppliers, and manufacturers. In other words; the entire building- and construction industry, including the water- and plumbing industry.

As an advertiser in our magazine, you will reach out to more than 30 000 decision makers. Our previously separated magazine VVS aktuelt is now an integral part of the Byggfakta magazine. This gives you, as an advertiser, an even bigger impact, in terms of branding, product launches, targeted campaigns, job ads, vouchers, catalogs, etc. The magazine is also sent out to over 30 000 subscribers as an e-magazine.

BYGGFAKTA nyheter

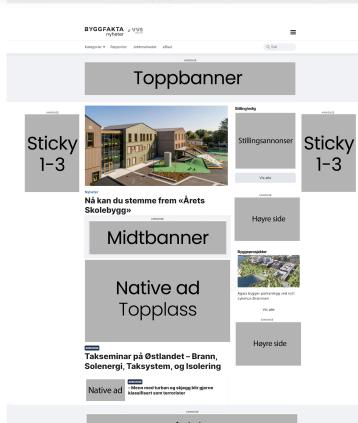

Digital advertising

2024

Our two websites, byggfaktanyheter.no and VVSaktuelt.no, have experienced a formidable increase in the number of visitors, with more than 870 000 and 450 000 page views a year. This makes us a very effective marketing channel for online and newsletter advertising, as well as native ads.

Our readers consist mostly of leaders and decision makers across the construction and building industry. This is the target group for our advertisers.

NATIVE ADS

Native ads are an advertising offering with an exclusive location and design. It is a marketing technique where you write an interesting and educational article about the company and what it engages in / some products or customer experiences. The goal is to attract, establish a relationship with and engage a clearly defined audience.

The article has a clear angle, a title and ingress that engages and a clear purpose to enlighten. It is clearly marked as an ad, but will resemble a news article.

What can native ads do for you?

Content marketing can build knowledge and trust in the business, create preference, generate leads, drive sales and build customer satisfaction.

NEWSLETTER

Newsletter sent out twice per week, tuesday and thursday to approximately 27 500 subscribers. Max 5 ads per newsletter (4 ads 620x150px and 1 ads 300x200px).
